Our Photography Work

Big Mao

Big Mao needed pictures for their new menu design. The menu was made in a way to imitate the Hongkong 60's aesthetic. So the we photographed the items on bright colored backgrounds. We created a Chinese newspaper print for texture. For a fun a energetic look, the lighting was bright and the photos are sharp.

Kwong Bee

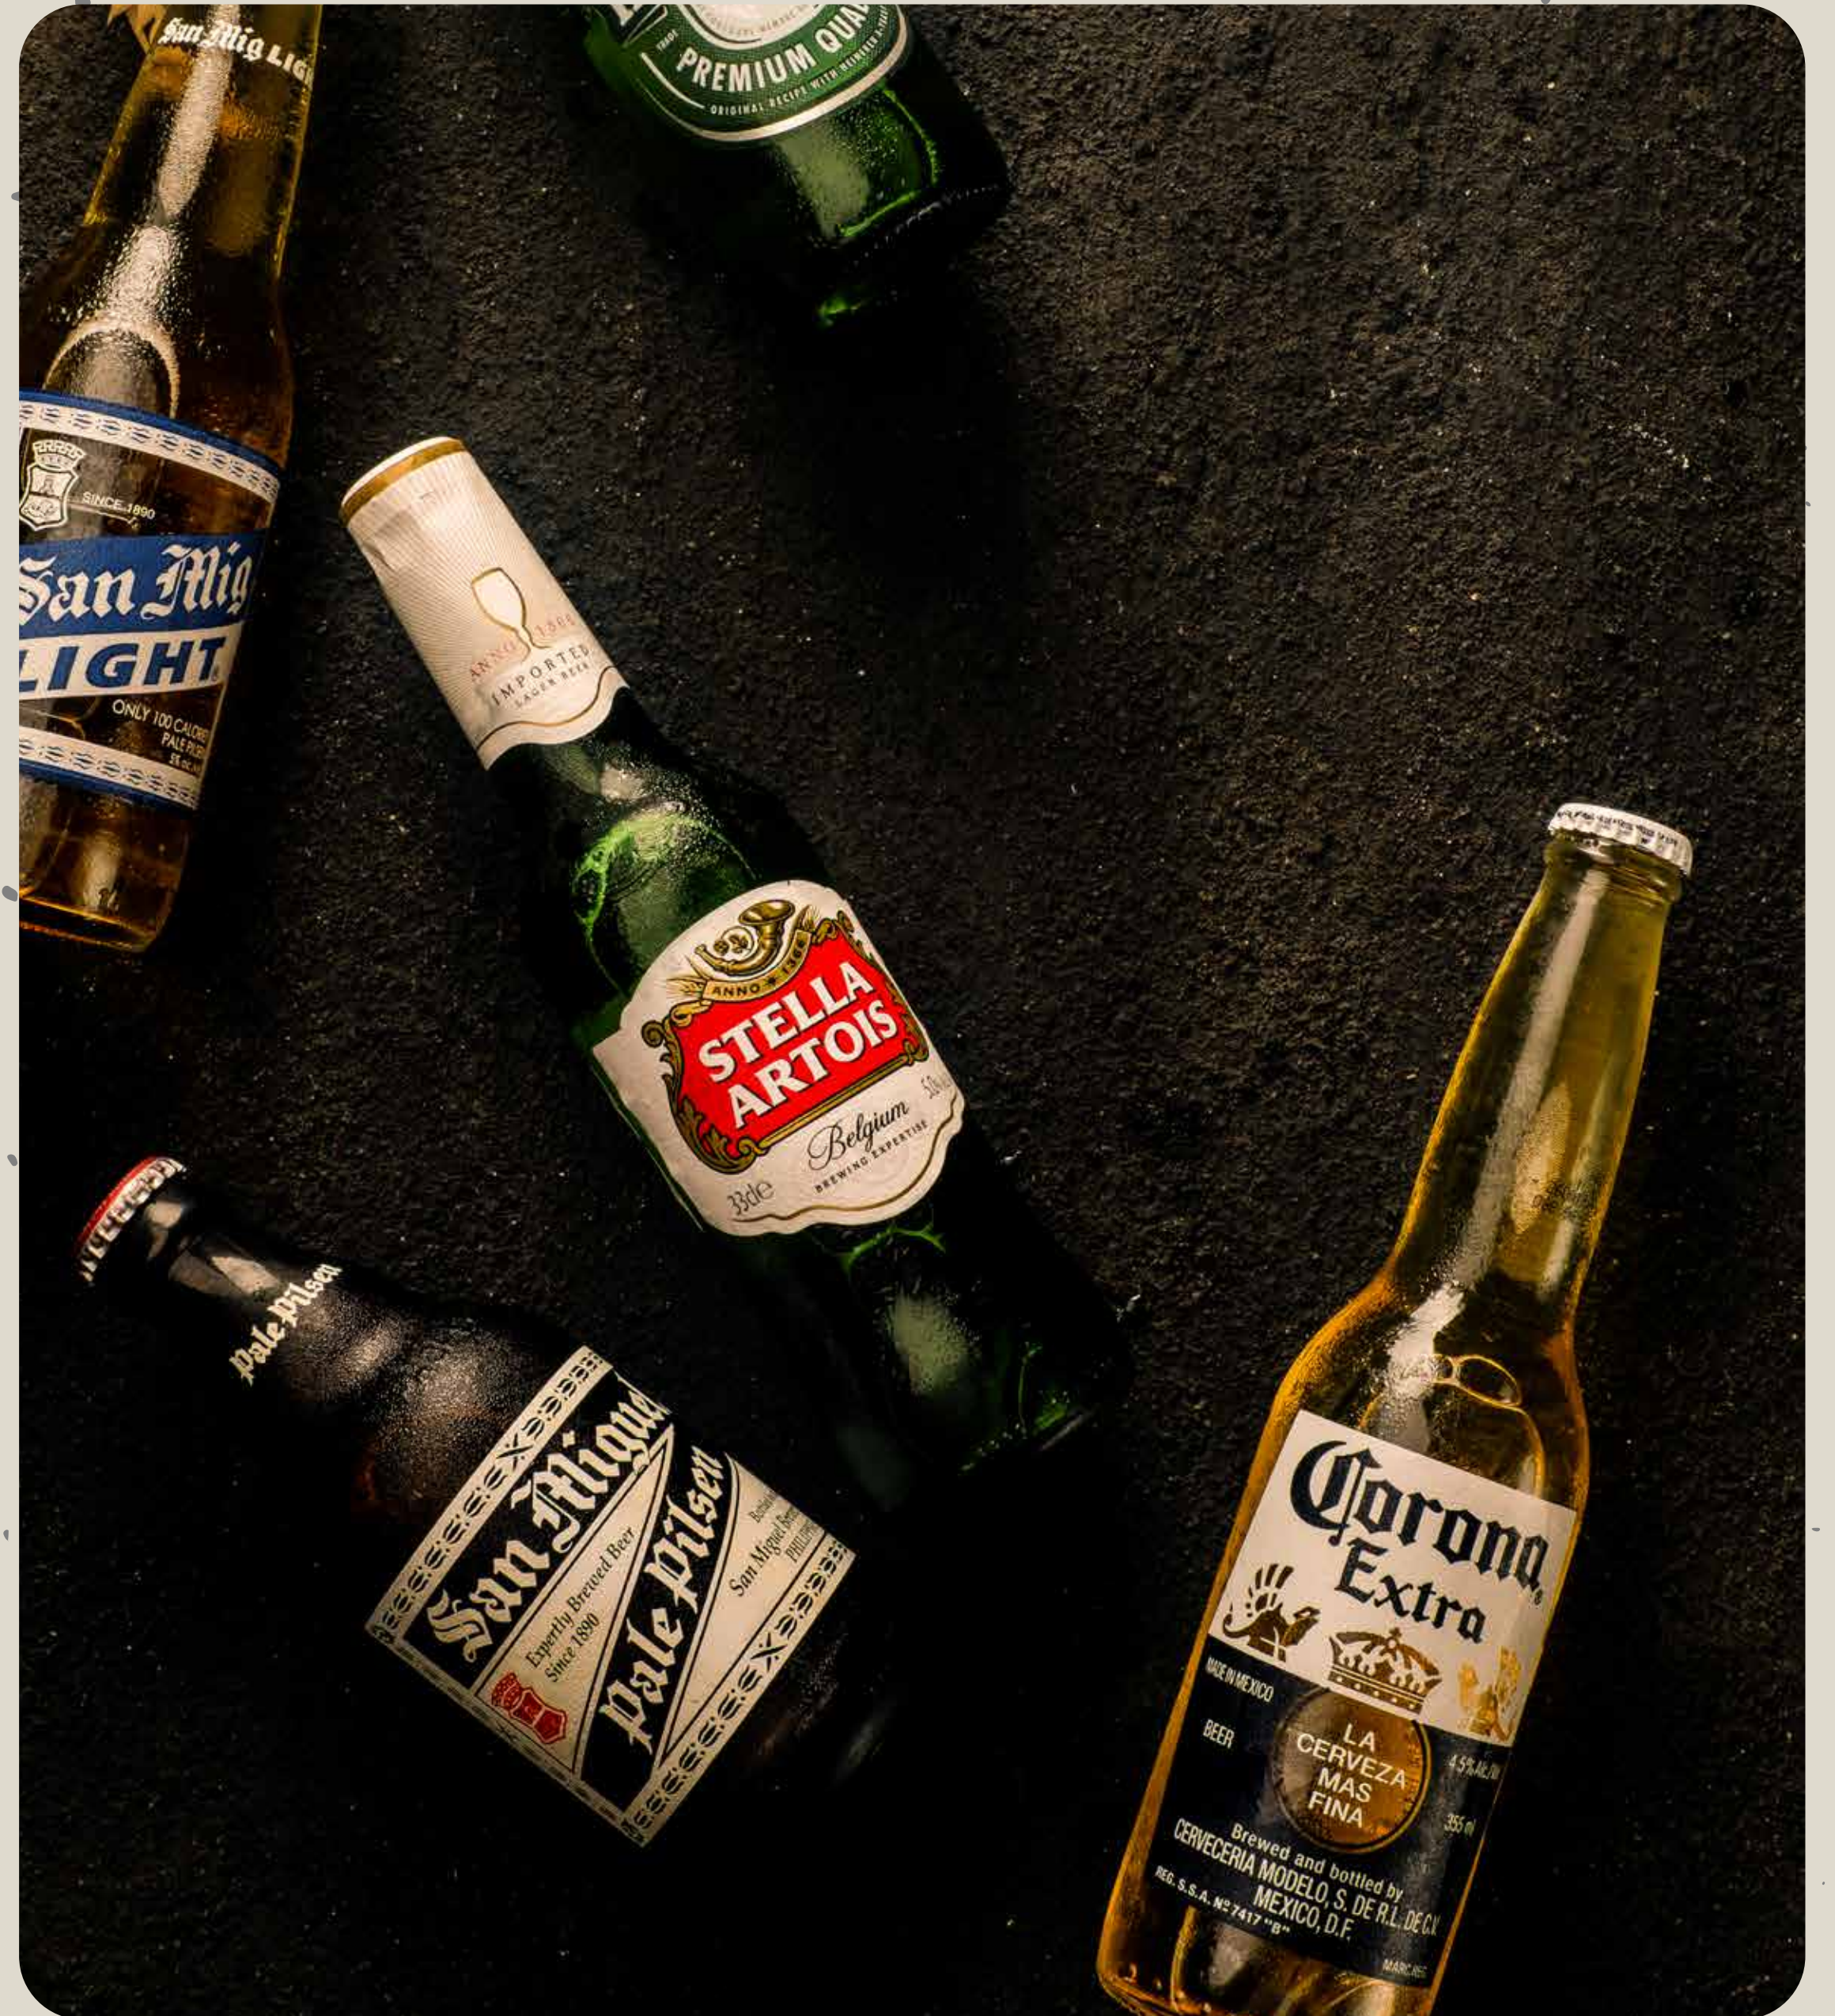

Kwong Bee needed a brand new packaging design for their Chinese sausage and Christmas Ham. We styled the sausages by using them in popular dishes to make them look appealing.

Ettas

Ettas needed a new menu digital menu design. So they asked us to photograph all their dishes from their menu. Their branding is modern and high end with the use of dark colors. Thus we photographed the items in dark, artistic lighting. We styled the items with dark textures and beautifully textured linens.

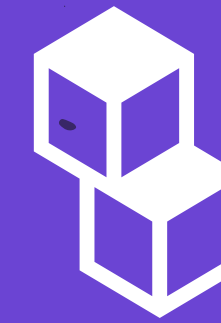

Johndorf Ventures

Johndorf wanted to show their finished projects to promote the quality of their developments. So we photographed some of their homes and amenities in Mactan Cebu, Carcar City, Davao and CDO. For a cozy and welcoming look we also photographed their homes during sunset.
